

# AUTHENTIC EMD MILLIPORE WATER SYSTEM CARTRIDGES AVAILABLE AT MEDSTORE!

## Why should you replace cartridges if your resistivity is still 18.2 MOhm.cm?

- Bacterial proliferation can occur in cartridges after 6 months
- Organic contaminants can break through ion exchange media and cause elevated TOC levels
- Resistivity alone is not a complete indication of water quality, non-ionic contaminants can compromise experiments

## Tired of cartridges that don't last long?

- Authentic Millipore cartridges have higher resin capacity
- Millipore uses virgin resins with the most efficient binding capacity
- Each cartridge comes with a certificate of quality

### Limited Time Offer

Purchase two items listed on this flyer and receive one eco-friendly travel mug free. Limited supplies are available, so act now!

Item	Catalogue No.	Price
Super-Q Organex-Q Cartridge	CPEX02201	\$313.60
Super-Q Ion-Ex Cartridge	CPMB02202	\$537.60
Super-C Carbon Cartridge	CDFC02203	\$556.60
Progard 2 Pretreatment Pak	PR0G00002	\$306.88
Quantum EX Cartridge	QTUM000EX	\$293.44
Super-C Carbon Cartridge	CDFC01204	\$365.12
Milli-Q Cartridge Kit	CF0F01205	\$476.00
Pretreatment cartridge	CDPRM1206	\$302.40
Q-Gard 1 Purification Pack	QGARD00R1	\$243.04
QPAK 1 Purification Pack	CPMQ004R1	\$459.20
QPAK 2 Purification Pack Kit	CPMQK05D2	\$459.20
Ion-exchange cartridge	CPMB01202	\$220.64
Organex-Q Cartridge	CDEX01201	\$145.60
Quantum IX Cartridge	QTUM000IX	\$293.44
Q-Gard 2 Purification Pack	QGARD00D2	\$243.04
Simpak 2	SIMPAK0D2	\$272.16
Simpak 1	SIMPAK0R1	\$272.16
Millipak 20	MPGP02001	\$209.44
