PYREX[®]

A Corning Brand

Celebrating 100 Years of Glass!

New PYREX Slim Line media storage bottles provide easier handling and more efficient storage of media, biologicals, and other aqueous solutions.

Features

- > Indented gripping zones along the sides of bottle allow easier and safer handling
- > New cap design permits faster opening and closing. The caps are fully compatible with all standard "GL45" (45 mm neck size) Pyrex bottles
- > Widely-spaced knurls (ridges and grooves) provide comfortable and ergonomic cap handling
- > Narrow bottle diameter allows more efficient storage on shelves, refrigerators, autoclaves.
- > Bottles are graduated to their full working volumes
- > Available in four sizes: 125 mL, 250 mL, 500 mL, and 1L

Pyrex Slim Line bottles are made from the same Type 1 Class A (ASTM E-438) borosilicate glass as standard Pyrex media bottles for chemical and heat resistance.

Because it is so fundamental to our world, chemistry plays a role in everyone's lives and touches almost every aspect of our existence in some way. In chemistry, research take many forms, from synthesizing compounds to building computational models or gathering and analyzing data using a wide variety of instruments and techniques.

Corning has been a valued supplier to chemists for a century since the introduction of PYREX low expansion borosilicate glass that is the quality standard for labware because of its clarity, strength, heat and chemical resistance.
