At Corning, cells are in our culture. In our continuous effort to improve efficiencies and develop new tools and technologies for life science researchers, we have scientists working in Corning R&D lab across the globe, doing what you do everyday. From seeding cultures to expanding cells for assays, our technical experts understand your challenges and your increase need for reliable cells and cellular material.

It is this expertise, plus a 160-year history of Corning innovation and manufacturing excellence that puts us in a unique position to offer a beginning-to-end portfolio of high-quality, reliable cell culture consumables.

### To redeem this promotion:

Purchase your qualifying Corning products during the specified time.
