# Designed for better everything

## Put an end to aliquoting

## Pour and pipette with the greatest of ease

### Did you know?

The new One Shot FBS 50 mL bottle was designed to fit a 25 and/or 50 mL pipette, unlike the current One Shot bottle.

## Stop the freeze-thaw-repeat cycle

### Did you know?

It takes on average 2 hr and 15 min to thaw a 500 mL bottle of FBS in a water bath at 37° C or 36 hr via a fridge at 4° C in comparison to 45 min and 6 hr respectively with the new One Shot bottle.

## Fits in test-tube racks

### Did you know?

The new One Shot FBS 50 mL bottle is the only conical tube alternative designed to fit perfectly in most test tube racks

## Free up space in your freezer
