PowerUp SYBR Green Master Mix

Formulated for maximum specificity and reproducibility

Applied Biosystems™ PowerUp™ SYBR™ Green Master Mix features:

- Exceptional specificity with proprietary Dual-Lock™ hot-start mechanism
- Tight reproducibility in C_t values over a broad dynamic range
- Compatibility with standard or fast cycling for results in less than 50 minutes*
- Room-temperature stability for up to 72 hours once plates are prepared for qPCR
- Compatibility with a broad range of instruments
