Genomic DNA Yield

PuroSPIN™ Silica Spin Columns for DNA / RNA Purification

Have you ever ran out of columns that come with your favourite nucleic acid extraction kit but still had a lot of left-over buffer reagents remaining? Instead of buying a new expensive kit you can use PuroSPIN™ columns with the left-over buffers as a cost-effective alternative.

Replacement columns are available in NANO, MICRO, MINI, MIDI and MAXI size.

PuroSPIN™ Silica Spin Columns for DNA / RNA Purification

Features

- PuroSPIN™ silica spin columns can bind both DNA and RNA
- Work with multiple kit types: Plasmid Purification, Gel Extraction, PCR Product Purification, Genomic DNA Purification, RNA Purification.
- Compatible as cost-effective replacement columns for nucleic acid extraction kits from Qiagen, Thermo Fisher Scientific, Bio-Rad, Promega and other manufacturers
- Each item includes both the spin column and the sample collection tube
- Extraction of DNA from bacteria, viruses, yeast, cultured cells, blood, urine, buccal swabs, animal tissue
- High nucleic acid binding capacity (MINI - 200 µg, MIDI - 1.5 mg, MAXI - 2.3 mg)
- Elution in as little as 6 µL of buffer using NANO spin columns to maximize DNA concentration

Product Code	Bundle Package Description	Size	Price
USP002-200N	PuroSPIN™ NANO Spin Columns for DNA / RNA Extraction and Purification	200 columns	\$91.20
USP002-500N	PuroSPIN™ NANO Spin Columns for DNA / RNA Extraction and Purification	500 columns	\$193.80
USP003-200N	PuroSPIN™ MICRO Spin Columns for DNA / RNA Extraction and Purification	200 columns	\$91.20
USP003-500N	PuroSPIN™ MICRO Spin Columns for DNA / RNA Extraction and Purification	500 columns	\$193.80
USP004-200N	PuroSPIN™ MINI Spin Columns for DNA / RNA Extraction and Purification	200 columns	\$91.20
USP004-500N	PuroSPIN™ MINI Spin Columns for DNA / RNA Extraction and Purification	500 columns	\$182.40
USP006-20N	PuroSPIN™ MIDI Spin Columns for DNA / RNA Extraction and Purification	20 columns	\$57.00
USP006-50N	PuroSPIN™ MIDI Spin Columns for DNA / RNA Extraction and Purification	50 columns	\$123.12
USP006-100N	PuroSPIN™ MIDI Spin Columns for DNA / RNA Extraction and Purification	100 columns	\$216.60
USP008-10N	PuroSPIN™ MAXI Spin Columns for DNA / RNA Extraction and Purification	10 columns	\$57.00
USP008-20N	PuroSPIN™ MAXI Spin Columns for DNA / RNA Extraction and Purification	20 columns	\$94.62
USP008-50N	PuroSPIN™ MAXI Spin Columns for DNA / RNA Extraction and Purification	50 columns	\$216.60
