Valid only at MedStore from Oct 1, 2019 to Dec 31, 2019

Buy any 2 Fisher Chemical™ Certified pH Buffers, Get another Fisher Chemical Certified pH Buffer at no additional cost.¹

OR

Buy a Fisher Chemical Buffer-Pac, get a Fisher Bioreagent™ Electrode Storage Solution at no additional cost.¹

Fisher Chemical Certified Buffers

Manufactured to exacting standards and packaged for convenience, Fisher Chemical Certified pH Buffers are ideal for standardizing pH meters and potentiometric titration equipment.

- Documented master production and quality control procedures for consistent quality and minimal lot-to-lot variation
- ISO 9001-certified manufacturing facility for development, testing, manufacturing, and packaging
- Tight tolerances: ± 0.01 pH for pH 4 and 7 buffers and ± 0.02 pH for pH 10 buffers at 25 °C
- Color-coded standards for major calibration points

Description	Size	Cat. No.
pH 4.00 Buffer Solution, Red	500 mL	SB101-500
pH 7.00 Buffer Solution, Yellow	500 mL	SB107-500
pH 10.00 Buffer Solution, Blue	500 mL	SB115-500
Buffer-Pac: one each of pH 4, 7, and 10 Buffer	3 × 500 mL	SB140-500

¹Offer limited to one bottle per customer. Cannot be combined with \$ spend promotion. For redemption: email proof of purchase to your local Fisher Scientific Representative.
