Tag Antibodies

From Cell Signaling Technology® (CST)

Cell Signaling
TECHNOLOGY®
Exclusive Canadian distributor

Epitope tags are useful for the labeling and detection of proteins using immunoblotting, immunoprecipitation, and immunostaining techniques. Because of their small size, they are unlikely to affect the tagged protein's biochemical properties. Several different epitope tags are now commonly utilized and readily available.

Looking Ahead to Future Innovations

CST is just getting started. We're excited about how continued innovation at CST will help the scientific community usher in a new era of personalized medicine, where moonshot ideas like eradicating cancer, curing Alzheimer's disease, or slowing down aging no longer seem so out of reach. We can't wait to collaborate with you.
